

BASHAR AL-NAJJAR

Senior Software Engineer | Mobile & Backend

Amman, Jordan | +962 788 14 0505 | b.alnajjar.h@gmail.com | [linkedin.com/in/bashar-al-najjar-80a686106](https://www.linkedin.com/in/bashar-al-najjar-80a686106)

PROFESSIONAL SUMMARY

Senior Software Engineer with 10+ years of experience across mobile and backend engineering, with a primary focus on Flutter and Node.js. Experienced in building cross-platform mobile applications using Flutter and Dart, alongside scalable backend services using Node.js, TypeScript, Express.js, and database-driven architectures. Strong expertise in mobile architecture, RESTful APIs, authentication, payment integrations, Firebase, real-time features, and third-party integrations. Proven ability to lead cross-functional teams across backend, mobile, QA, and database while remaining hands-on in solution architecture, code reviews, performance optimization, production troubleshooting, CI/CD, and release management.

CORE TECHNICAL SKILLS

Mobile Engineering: Flutter, Dart, Android, Kotlin, Java, iOS, Swift, cross-platform development, Android SDK development
Backend Engineering: Node.js, TypeScript, JavaScript, Express.js, NestJS, PHP, Laravel, Spring Boot, RESTful API development
Architecture & Design: Clean Architecture, MVVM, MVC, MVP, BLoC, Repository Pattern, Service Layer, SOLID principles
APIs, Security & Integrations: Swagger/OpenAPI, JWT, RBAC, request validation, payment integrations, Apple Pay, in-app purchases, third-party SDKs
Databases & ORM: PostgreSQL, MySQL, MongoDB, SQLite, Prisma ORM, database design, query optimization
Firebase & Cloud: Authentication, Firestore, Realtime Database, FCM, Analytics, Remote Config, AWS SNS, Amazon Cognito
Testing & Quality: Unit and integration testing, Jest, Supertest, code reviews, performance optimization, production troubleshooting
Tools & Delivery: Git, Docker, Jenkins, Jira, JFrog, CI/CD, Postman, SDK publishing, App Store and Google Play releases
Technical Leadership: Team leadership, solution architecture, technical planning, mentoring, risk identification, release readiness, production stability
AI-Assisted Development: Coding, debugging, refactoring, technical documentation, and solution prototyping

PROFESSIONAL EXPERIENCE

Diamond Software Technologies | Technical Lead / Senior Software Engineer

Amman, Jordan | Sep 2024 - Present

- Joined the company as Mobile Lead and progressed to Technical Lead, expanding responsibility across mobile, backend, QA, and database functions.
- Lead a cross-functional engineering team of 6-10 members while remaining hands-on in Flutter and backend engineering.
- Own technical planning, solution architecture, code quality standards, task breakdown, risk identification, and release readiness for business-critical systems.
- Design and guide the implementation of backend services, RESTful APIs, database-driven solutions, and mobile applications across Flutter, Android, and iOS.
- Contribute hands-on to backend and mobile development, technical investigation, code reviews, performance improvements, and resolution of complex production issues.
- Oversee integrations with payment gateways, Firebase, maps, real-time services, enterprise platforms, and third-party APIs.
- Translate business requirements into practical technical solutions and coordinate delivery with product, UI/UX, CRM, QA, and business stakeholders.
- Manage Android and iOS release workflows, post-release validation, production stability, and SDK publishing through JFrog.
- Mentor engineers and promote maintainable architecture and consistent engineering practices across projects.

Genie9 | Senior Software Developer - Android & Flutter

Amman, Jordan | Jan 2023 - Sep 2024

- Developed and maintained production Android and Flutter applications using Kotlin, Java, Dart, MVVM, BLoC, and GetX.
- Integrated RESTful APIs, Firebase services, local storage, background processing, analytics, and push notifications.
- Collaborated on API contracts, authentication flows, data models, technical design, and production troubleshooting.
- Improved application reliability through code reviews, debugging, performance analysis, and production fixes supporting application releases.

Yellow | Senior Mobile Developer & Backend Developer

Amman, Jordan | Dec 2018 - Jan 2023

- Built and maintained Android, iOS, and Flutter applications using Kotlin, Java, Swift, and Dart, with Flutter becoming the primary cross-platform technology.
- Developed and integrated Node.js backend services and RESTful APIs supporting mobile application features and data workflows.
- Worked with backend authentication, business logic, database integrations, real-time services, and third-party APIs.
- Delivered real-time location tracking, payment integrations, Apple Pay, in-app purchases, Firebase services, and push notifications.
- Designed maintainable mobile architectures using MVC, MVP, and MVVM patterns.
- Integrated RESTful APIs, Google Maps, analytics tools, and third-party platforms into production applications.
- Worked across technical design, implementation, testing, deployment, troubleshooting, and post-release support.

HUDHUD Information Technology | Android & PHP Developer

Amman, Jordan | Mar 2017 - Nov 2018

- Developed Android applications using Java and supporting backend services using PHP.
- Designed and integrated RESTful APIs, server-side business logic, relational databases, authentication flows, and API-driven workflows.
- Troubleshoot issues across Android applications, backend APIs, and database integrations.

Manaf Soft | Android Developer Trainee

Amman, Jordan | Jun 2015 - Sep 2015

- Completed practical training in Android application development using Java, core Android components, REST API integration, and software development fundamentals.

EDUCATION

Bachelor's Degree in Computer Network Systems (IT) | Applied Science Private University, Amman, Jordan | 2011 - 2015

CERTIFICATIONS & TRAINING

- Android Smartphone Applications Development, Level 1 & Level 2 - Accredited by Ministry of Labor
- Android Smartphone Applications Development - Pearson accredited
- iOS Application Programming Using Swift - Applied Science Private University
- Advanced Internet Software Development Using PHP
- CCNA Training

LANGUAGES

Arabic: Native | **English:** Good working proficiency
